

Hello, and saludos desde Colombia (greetings from Colombia!

My wife Cathy and I form the base of **Carpsonamission**, an organization formed to start and help support projects throughout South America as we find need. In the past, our resources and time have gone to help work in Ecuador, Peru, and Colombia. We are supported through prayer and donations from PCC. We came to PCC when it was meeting in the Flex Gym facility after we had completed two year s Ecuador and one year in Japan, and were looking for the next mission field. God allowed us two years in Carrollton, a time of refreshment but also an opportunity to use the relative comfort of the U.S. to look abroad and see where God wanted us to be. Although we are going into our fourth year of living and working in Colombia, we are still very active in missions work in both Ecuador and Peru. Always seeking, we are headed to Cochabamba, Bolivia, next week for a few interviews and to tour an orphanage to see whether God needs us there when the Colombian contract is done. Our most successful mission emphasis, by far, was having a HUGE group of PCC family members join us in Quito and the surrounding area in July 2009. We were able to make major inroads with the street children of Quito and countless children in the countryside missions projects. Pastor David Reid and the entire PCC family live the Biblical mandate to go into all the world and teach the nations, and we are blessed to be a part of PCC and its international outreach ministries.
